The logo consists of the letters 'IIS' in a bold, serif font, centered within a square border.

SUMMARY

As a full-stack web developer, I have developed a solid foundation in both front-end and back-end technologies. My strong problem-solving abilities curiosity drive me to constantly learn and stay up to date with the latest industry trends and learn new technologies. I bring a strong work ethic, a quick learning ability, and a dedication to delivering high-quality code.

TECH SKILLS

Front-end: HTML, CSS, JavaScript, React.js
Back-end: Node.js, Express.js, MongoDB
Tools: Git, GitHub, yarn, NPM, Trello, BASH
Currently learning: Three.js, Python, C

PROJECTS

Final Project – Métropole

Repo: <https://github.com/iqrasy/Final-Project-Metropole>

- Created a traveller's guide to Montreal which allows you to book restaurants, hotels, and activities all in one place.
- Using several API's, I stored the data in my database. Also, through backend verification and CRUD. Required a lot of problem-solving and attention to detail.

Technologies: React.js, MongoDB, Node.js, Express.js, JavaScript

ORBIT

Repo: <https://github.com/iqrasy/orbit>

- Recreated the solar system using Three.js. It provides an interactive and visually appealing representation.
- Taught myself Three.js and created a seamless integrate 3D elements into the project using Three.js. Used JavaScript to implement various functionalities and interactivity, allowing users to interact with the 3D elements in real-time. I like keeping up to date with emerging technologies and trends in the industry.

Technologies: Three.js, JavaScript

Twitter Clone

Repo: <https://github.com/iqrasy/project-twitter-clone>

- Created a twitter clone which allows you to post tweets, view tweets, like tweets, and view profiles.
- This was done using React Context, API fetches, and REST API's. Wrote clean, efficient, and maintainable code while adhering to best practices. In-depth knowledge of web design principles and user experience design.

Technologies: React.js, Node.js, Express.js, JavaScript

EDUCATION

- Concordia University, 2023 – Diploma in Full-Stack Web Development
 - Technologies covered: HTML/CSS, JavaScript, React, Node.js, Express.js, MongoDB, Git, GitHub
 - Udemy, 2023 - 100 Days of Code: The Complete Python Pro Bootcamp for 2023
-
