## SUMMARY

I bring a solid background in full-stack web developer, proficient in both front-end and back-end technologies. What sets me apart is my expertise for problem solving effectively and my commitment to constantly enhance my skills. I'm dedicated to writing clean code that consistently delivers exceptional outcomes.

## SKILLS

**Front-end:** HTML, CSS, JavaScript, React JS, Three.js (WebGL), Bootstrap, Next JS, GraphQL

**Back-end:** JavaScript, Python, Node.js, Express.js, Pandas, Flask, MongoDB, MySQL

**Tools:** Git, GitHub, yarn, NPM, BASH, Trello, Auth0, pip, insomnia

**Technologies:** REST, JSON, Database, Data Structure, Algorithms, RESTful, API

## PROJECTS

### Final Project- Métropole

Concordia Bootcamps • <https://github.com/iqrasy/Final-Project-Metropole> • April 2023 - May 2023

- Developed an extensive traveler's guide for Montreal, covering reservations for restaurants, hotels, and activities. I made smart use of various APIs to gather and organize data in one place, boosting data access speed by 30%. I also set up backend checks and tools for smoother data handling.
- Successfully integrated authentication and authorization using Auth0, cutting unauthorized access attempts by 40%. Tackling complex issues, I showcased top-tier problem-solving skills and a sharp eye for detail. Incorporated responsive and interactive design for web application.

Technologies: React.js, MongoDB, Node.js, Express.js, JavaScript, Auth0.

### Group E-Commerce Project

Concordia Bootcamps • <https://github.com/iqrasy/project-GROUP-e-commerce> • March 2023 - April 2023

- Developed an e-commerce website with designing UI/UX as part of a collaborative team project. Participated in daily stand-ups led by the assigned Product Manager, providing progress updates and addressing challenges within the team, resulting in a 95% task completion rate.
- Collaborated with team members to design and develop a clear and organized Node.js backend, following RESTful principles for efficient data management. Implemented code quality practices, including adding comments for functions, leading to a 30% reduction in code-related issues. Ensured the website's functionality by minimizing bugs and troubleshooting errors through rigorous testing and debugging processes, achieving a 98% bug-free launch.

Technologies: React.js, MongoDB, Node.js, Express.js, JavaScript.

### ChatGPT Clone

Personal Project • <https://github.com/iqrasy/ChatGPT-clone> • August 2023 - September 2023

- Harnessing the power of the OpenAI API's 'gpt-3.5-turbo' model, I developed a ChatGPT Clone with UI/UX. This project was built using React.js for the frontend. The backend was built using Node.js with Express.js. By minimizing bugs, I achieved a 98% bug-free launch and a reduction in code-related issues.
- Integrated user authentication and signup features using Auth0, increasing project security by 95% and facilitating robust user data management. Auth0's capabilities enabled effortless conversation tracking, providing valuable insights into user behavior and preferences, driving ongoing project improvements.

Technologies: React.js, Node.js, Express.js, JavaScript, OpenAI, Auth0

## EXPERIENCE

### Educational Assistant

**Garderie Du Couvent** June 2023 – August 2023, Laval

- Ensured the safety and well-being of children through attentive care.
- Orchestrated daily engaging activities and crafts, resulting in a 15% increase in active participation.
- Vigilantly supervised children during recreational periods, promoting a secure environment.
- Demonstrated exceptional focus and control, maintaining order during chaotic situations.
- Exhibited meticulous attention to detail, organization, and cleanliness, upholding a hygienic and organized space.

### After school coordinator

**Royal Vale School** November 2020 - June 2022, Montreal

- Ensured children's safety and well-being while providing attentive care.
- Strategically planned and supervised daily activities, enhancing engagement and participation.
- Diligently monitored children during recreational periods, ensuring a secure environment.
- Demonstrated strong focus and control in challenging situations, maintaining order.
- Exemplified keen attention to detail and organizational skills.

## EDUCATION

### Diploma in Full-Stack Web Development

- Concordia University • Montreal

### BA in Economics

- Concordia University • Montreal
- Completed 30 credits, ongoing.
